

D44 Department of Decentralisation and Development, Wollongong Office

History	Department of Decentralisation and Development is responsible for implementing the N.S.W. Government's policy on industrial development and decentralisation. In May 1972 a system of regional advisory councils, comprising representative of government and local industrial and commercial interests, was set up to advise in respect of the development of each individual region. Many of the items in this deposit were produced or sponsored by the Illawarra Regional Development Committee.
