Try the database Business Monitor Online

Business Monitor Online reports on 175 countries and includes quarterly forecasts and surveys in eleven key industry sectors for each country. Each report has been researched at source and features the latest available data covering production, sales, imports and exports; 4-year industry forecasts through to end 2007; and, company rankings and competitive landscapes for multinational and local manufacturers and suppliers.

Additional databases for Commerce can be found on the Databases page under the By Faculty link on the Library website.

E-books for Commerce
There are a range of e-books that are relevant for Commerce. For example:

Title: Worldwide financial reporting: the development and future of accounting standards
Author: George J. Benston

To find similar material use the Catalogue Keyword search function. Type in your keywords, eg ‘accounting’ and ‘standards’, and select ‘EBOOK’ from the dropdown menu beside Material Type.

Hints and tips

- When you are searching in a database and find that the information you need is not available in full text, click on the WebBridge icon and it will link you to the UOW Library catalogue. Here you may check whether the item is held either ONLINE in another database, or, in PRINT.

- Remember to use truncation to search for all the different endings of a word. Check the Tips link in the Databases lists to find the truncation symbol for the database you want to use. For example in the Library catalogue, type financ** to find material with the words finance, finances, financial or financially.
